

NDIS Worker Screening Checks: Information for Self-Managed and Plan-Managed Participants

From 1 February 2021 there will be new worker screening laws in Queensland. The new laws will help improve the safety and quality of services you receive through the NDIS.

If you hire your workers through a registered provider, they will need a clearance before they can start work.

If you hire your support workers directly or through an unregistered provider, you can choose if you want to ask them to get a clearance.

You can check your workers' eligibility in the NDIS Worker Screening Database. To register visit www.ndiscommission.gov.au or ask your plan manager.

For more information phone 1800 183 690 or visit
